

GAME CARD 3 INVASION

- (i.) Two groups of four join together to make teams of 5 and 3.
- The team of 5 defends 2 goals (*one across each of their defending corners*).
 - The team of 3 defends one goal placed centrally on their back line.
 - The “5” begin with the ball on the back line of their area and try to pass it around and make forward progression to score in the single goal.
 - You may not move with the ball.
 - The “3” try to cover the spaces and dispossess the attacking side. If they gain possession they try to score in either of the two corner goals.
 - Change teams round regularly. How many “goals” are scored before you change? **WHO** changes? Make the rules.
 - Plan ways of working together in a team to outwit the opposition.
 - When do you mark man-to-man and when do you cover spaces?
