

## A 9

### ROBOT RUN

- a) Jog about the playground. When the teacher calls “Touch” – touch the floor with one hand and then continue running. When the teacher calls “Two touch” – bend down and touch with both hands on the ground and continue running. At the third command “jump” – jump into the air and then continue. These commands can be called in any order.

- b) Same game but instructions could be touch **right** touch **left** touch **two** “head a ball” sit down/stand etc.
- c) Same game but teacher can also change the mode of travel.

## A 10

### LUMPS

Move about the space (i) but when the teacher calls a number, the children gather in groups of that number and sit down when they are correct. Any children not fitting into a group should be congratulated for recognising it! (*this stops them from feeling left out*)
